Email: mishra0108sakshi@gmail.com
Mobile: +91-7992470771

SKILLS

Languages & Tools:	C, C++, Java, JavaScript, Python, HTML5, CSS3, Git, GitHub, Vercel, Render
Frameworks & Databases:	React.js, Next.js, Tailwind CSS, Node.js, Express.js, FastAPI, REST APIs, MongoDB, ChromaDB, SQL
Core CS:	DSA, OOP, DBMS, Operating Systems, Computer Networks, Problem-Solving, Complexity Analysis
Soft Skills:	Problem-Solving, Verbal Communication, Teamwork, Analytical Thinking

PROJECTS

Open Source Contributor | Social Summer of Code (SSOC) Season 5 | SSOC Jul' 26 - Present

- Contributed to open-source projects through Git/GitHub workflows, issue tracking, pull requests, and code reviews, improving codebase stability by 90%.
- Collaborated with 2 developers to implement feature enhancements, resolve bugs, and improve project functionality following standard software development practices.
- Led 10+ contributor meetings and engaged 50+ students through technical discussions and outreach, strengthening contributor communication and participation.

GitHub RAG Assistant — Full-Stack RAG Application | Live | GitHub Jul' 26 - Aug' 26

- Built a RAG-based GitHub code assistant that enables natural-language queries over repository code and documentation with responses grounded in retrieved context.
- Engineered the retrieval pipeline using document chunking, vector embeddings, and ChromaDB semantic search to surface relevant code context.
- Integrated React and FastAPI with the Groq LLM API to deliver context-aware responses in a full-stack application.

Tech: Python, FastAPI, React, ChromaDB, Groq LLM API, Vector Embeddings

ProctorEd — AI-Proctored Online Exam Platform | Live | GitHub May' 26 - Jul' 26

- Designed a full-stack AI-proctored exam platform combining secure authentication, candidate ID verification, and automated monitoring to safeguard exam integrity.
- Implemented 4 integrity-monitoring modules: face detection, OCR verification, tab-switch monitoring, and full-screen enforcement.
- Automated scoring and exam-management workflows using React, Node.js, Express.js, MongoDB, and JWT, reducing manual grading effort for instructors.

Tech: React, Node.js, Express.js, MongoDB, JWT, OCR, Face Detection

TRAINING

Advanced Backend Development with Node.js, Express & MongoDB | Certificate Jun' 26 - Jul' 26

Centre for Professional Enhancement, Lovely Professional University

- Completed a structured backend training program covering JavaScript (ES6+), Node.js, and Express.js fundamentals.
- Gained hands-on experience with MongoDB & Mongoose, RESTful API design, and JWT-based authentication.
- Made a full-stack MERN vehicle rental application as the capstone project; achieved Grade A, certified by the Centre for Professional Enhancement, LPU.

CERTIFICATIONS

- | | |
|---|---------|
| Oracle Certified – Database Management Systems (DBMS) Certificate | May' 26 |
| Oracle Certified – Artificial Intelligence (AI) Certificate | May' 26 |

ACHIEVEMENTS

- | | |
|--|---------|
| LeetCode 50-Day Streak Badge — Consistent problem-solving practice and coding discipline. | Jul' 26 |
| Solved 100+ DSA problems on LeetCode, strengthening core problem-solving and algorithmic skills. | Jul' 26 |
| Maintained 400+ GitHub contributions through consistent open-source and software development activity. | Sep' 26 |

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.08	Since Aug' 24
Sushant Public School	Muzaffarpur, Bihar
Intermediate; Percentage: 61.2%	Apr '23 – Mar '24
Holy Mission Senior Secondary School	Muzaffarpur, Bihar
Matriculation; Percentage: 68.2%	Apr '21 – Mar '22
